They would be individually assigned on a reimbursable detail duty. Only one agent would be required for each 180-day period, but it is requested that there be a brief overlap between successive agents to maintain continuity of the program.

4. Please be advised that each of the Border Patrol agents will receive the same benefits as Agency employees assigned abroad and they will be required to meet the same security standards, including a full background investigation, medical and polygraph examination. Each individual will be required to sign a Secrecy Agreement which would prohibit them from divulging any information on Agency operations, methods or personnel. An administrative agreement will be forwarded in separate correspondence.
